Important safety instruction

Read carefully before operating the speaker.
Keep this document safely for future reference.
Please ensure that the power cable is intact.
Please ensure that the power cable is connected to the power socket correctly.
Please ensure that the power socket is installed nearby the speaker and is easy to operate.
Please ensure that the power cable is not twisted, bent, pulled, or otherwise damaged, and keep it away from heat sources.
Please ensure that the speaker is placed on a stable surface, and that the speaker is not exposed to any vibration, shock, or impact.
Please ensure that the speaker is not exposed to any liquid, moisture, or moisture environment, and do not place any liquid on the speaker.
Please ensure that the speaker is placed in a well-ventilated environment, and that the ventilation holes are not blocked.
Please ensure that the speaker is placed at a safe distance from other electronic devices, and that the speaker is not exposed to any interference.
Please ensure that the speaker is not exposed to any heat source, such as a heater, stove, or other electronic devices.
Please ensure that the speaker is not exposed to any flammable or explosive gas or substance.
Please ensure that the speaker is not exposed to any corrosive gas or substance.
Do not remove the cover, disassemble, or modify the speaker by yourself.
Do not use the speaker if it is damaged, or if the speaker or its accessories are damaged, please contact your dealer or the manufacturer.
Do not use the speaker during a thunderstorm to avoid electric shock or other hazards.
Do not use the speaker for a long time at high volume, to avoid hearing damage.
Do not touch the speaker, clean, disassemble, or repair the speaker by yourself, or expose the speaker to extreme temperature or other hazardous environments.
Do not let children or pets touch the speaker, or let children or pets insert any foreign objects into the speaker.
