# OpticFilm series Quick Start Guide
① Unpack and Connect

Scan me -- Installation Tutorial video

* 35 mm IT-8 Target (Only for OF8200i Ai)
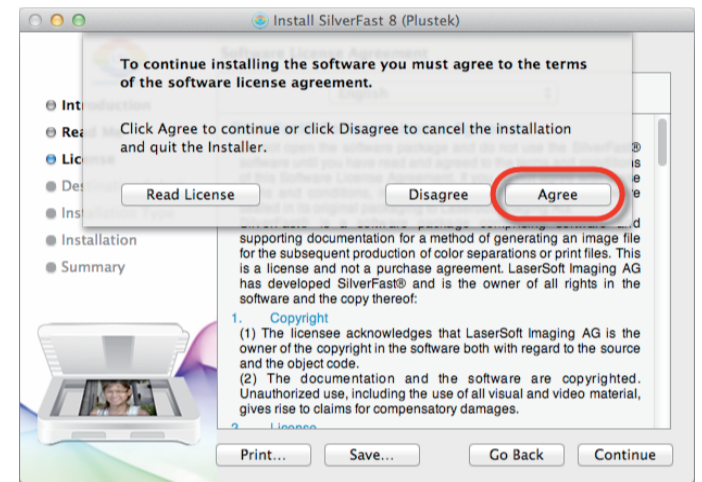

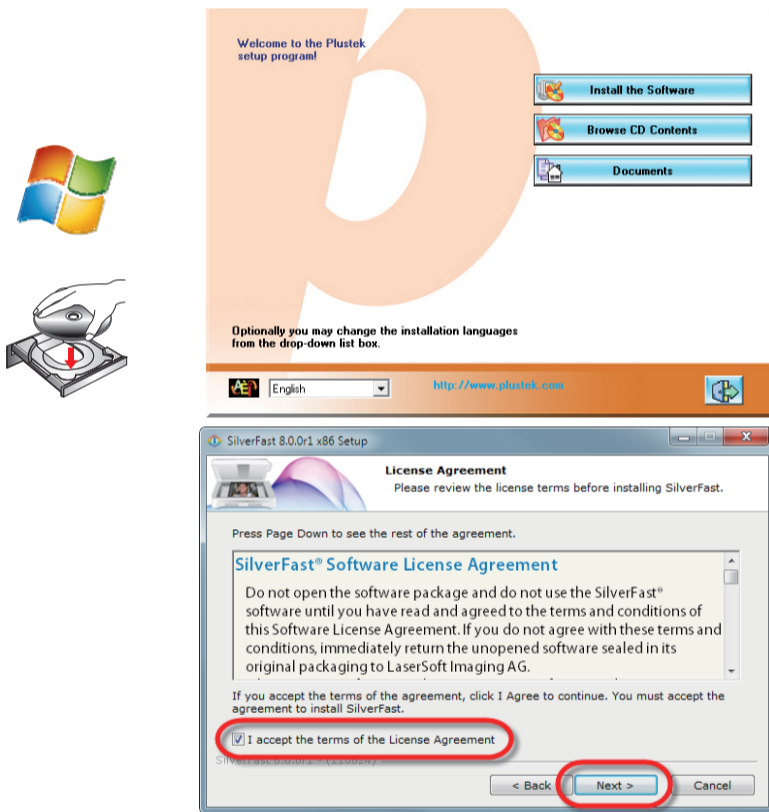

Place Film in the Holder

② Install Software

If you are installing the software without a CD/DVD drive, please refer to For Mac/PC without a CD/DVD drive section on the rear side of this guide.
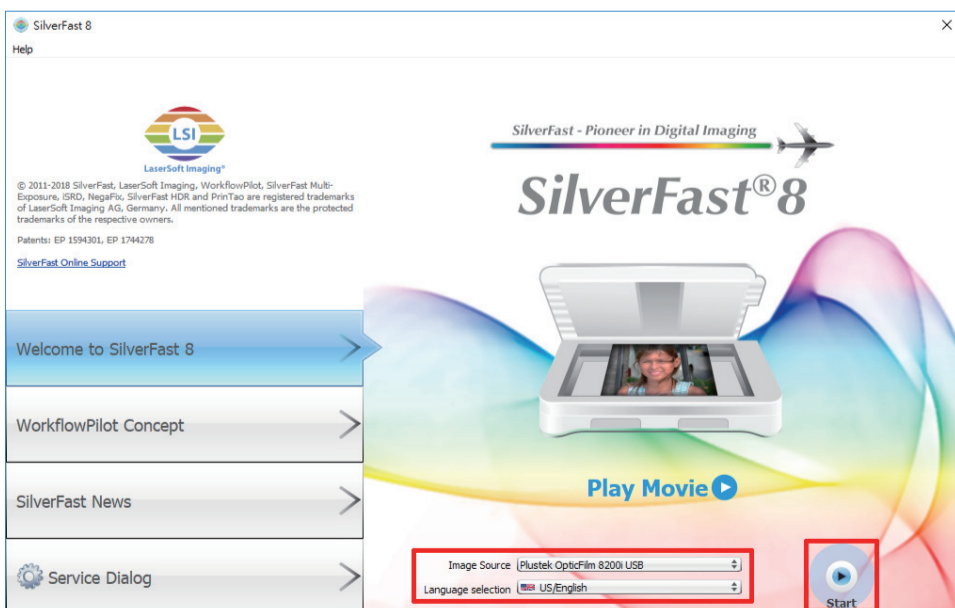

Insert the product CD and run your product's software package.

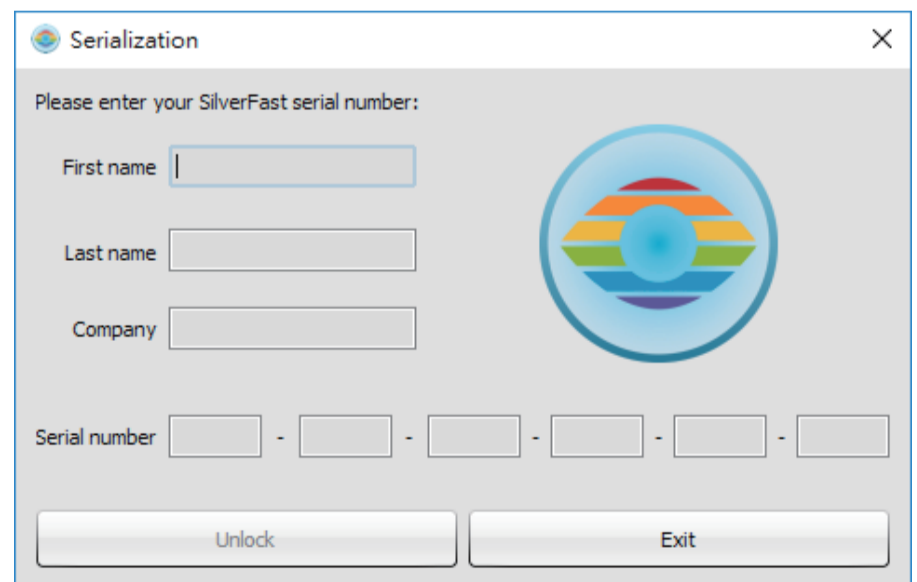

* You do not have to install any scanner drivers when installing the scanner under Mac OS. The scanner drivers are already included within the SilverFast installation.

③ Unlock SilverFast

1. Check Image Source and Language Selection, then click **Start**.

Attention If the **Image Source** is blank, please check if your scanner is properly listed under [Imaging Devices] in [Device Manager].

2. Enter your **First name, Last name,** and the **Serial number,** then click **Unlock**.

* The SilverFast DVD-ROM should remain in the DVD-ROM drive for the Unlock process.

The SilverFast serial number is located on the front of the SilverFast DVD-ROM case.

For Mac/PC without a CD/DVD drive

If you are installing the software without a CD/DVD drive:

1. Visit https://plustek.com/usa/support/drivers-and-downloads.html to download and install scanner driver.

2. Please visit https://www.silverfast.com/ to download and install SilverFast software.

If you are installing the software without a CD/DVD drive:

Please visit https://www.silverfast.com/ to download and install SilverFast software with scanner driver.

**1.** Please visit https://www.silverfast.com/, click **Downloads > Demos.**

2. Click **SilverFast – Scanner Software.**
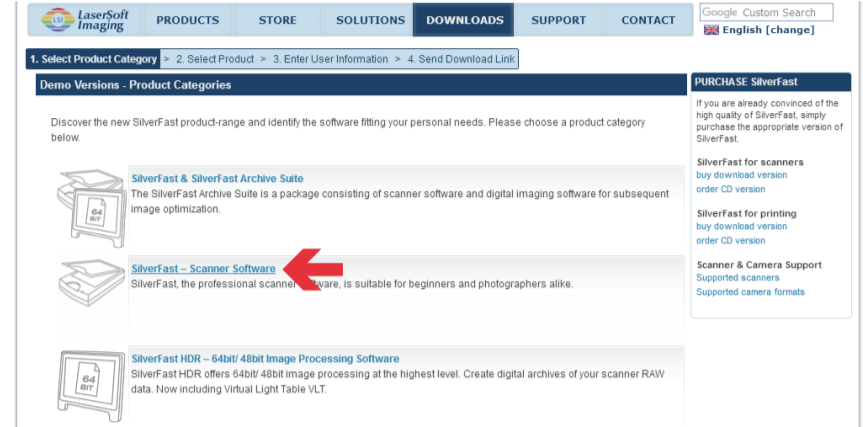

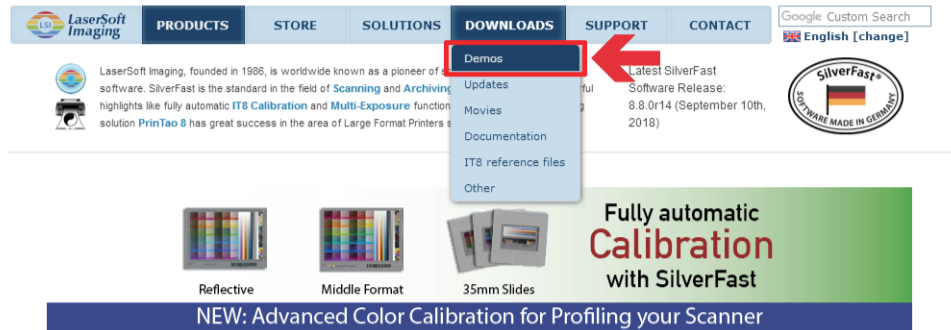

3. Select **Manufaturer, Product, Language** and **Operating system,** then click **Show Downloads.**

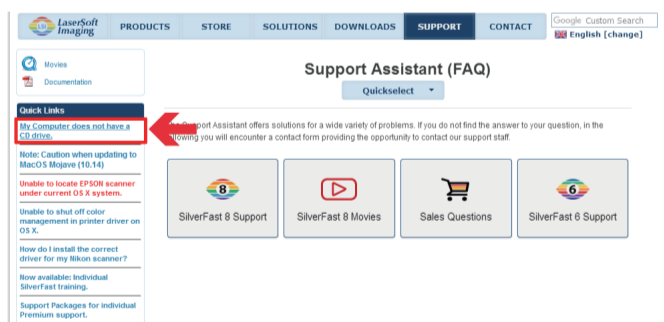

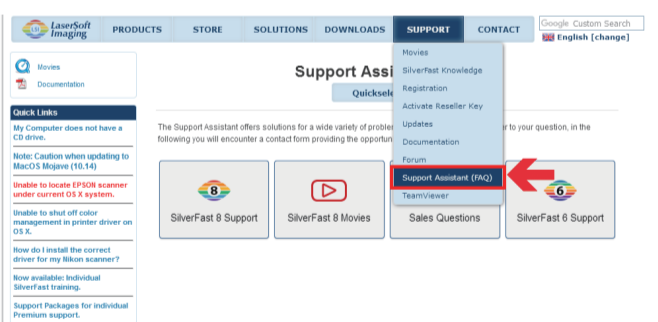

* Please select the correct **Operating system** from the dropdown list.

4. Click **SilverFast 8 (Demo)** to download.

To use SilverFast without a CD/DVD drive:

1. Please visit https://www.silverfast.com/, click **Support > Support Assistant (FAQ).**

2. Click **My Computer does not have a CD drive.**

Attention

This step will exchange your current serial number for a **NEW** one.

Your current serial will be **invalidated**.

Please keep your **NEW** serial number for further communication with LaserSoft Imaging.

FAQ

1. Why can't I start the SilverFast software?
Check if the **Image Source** is blank, if it is blank:
a. Make sure the USB cable and power cord are connected properly.
b. Check if your scanner is properly listed under [Imaging Devices] in [Device Manager].

2. How to do the SilverFast software reset?
a. Click [Service Dialog] in the SilverFast welcome screen.
b. Select [Software reset] resets this software to the factory settings. (All saved settings will be lost as well.)

3. Is the iSRD function not available on B/W film?
iSRD can be used with conventional colour negatives (developed using the C41 process), colour slides (developed using the E6 process) and paper proofs. Due to the silver content in conventional black and white negatives and slides, these can't be retouched using iSRD.
