User Manual
Connector Crimping Tool
AcCTSF-R451112

aceline

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The tool is designed for connecting wires to each other or to the contacts of electrical connectors.

Safety Precautions

- Use the device exclusively for the purposes specified in this manual.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- This device is not intended for commercial use.
- Do not make any modifications to the device design.

Specifications

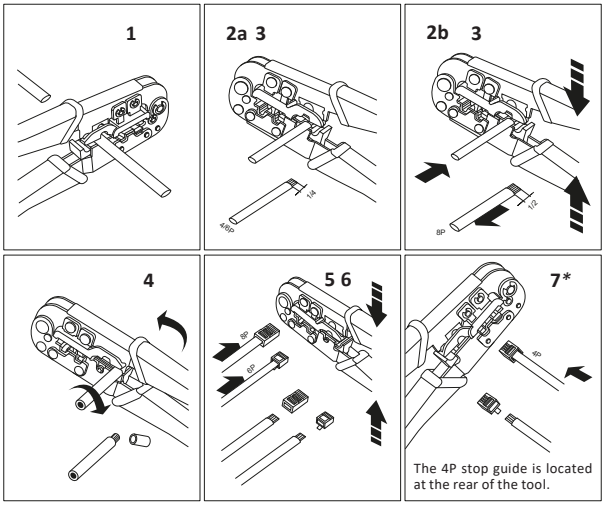

Model: AcCTSF-R451112.
Trademark: Aceline.
Scope of application: Domestic.

Package Contents

- Device.
- User manual.

Operating Instructions

Squeeze the handles to open the tool.

1. Cable cutting: Place the cable on the side with a single blade and cut it to the desired length. Ensure the cable is cut straight.
2. Cable stripping: Insert a 4P/6P cable into the slot with two blades until it touches the stop guide (2a); insert an 8P cable into the slot with two blades and pull it slightly past the lower blade (2b).
   Note: During stripping, the cable must be positioned perpendicularly.
3. Squeeze the handles fully, then pull the cable out of the tool.
4. Stripping round cables: Insert the cable into the round hole, then simultaneously rotate the tool counterclockwise and the cable clockwise.
5. Remove the insulation and insert the separated wires into the connector. Ensure that the wire on the left corresponds to the wire on the right at the other end.
6. Insert the modular connector with the cable into the tool. Ensure that the stripped wire is positioned between the insert and the electrical contacts. Squeeze the handles fully, then remove the crimped cable.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The device does not require installation or permanent mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Disposal of this device must be carried out in accordance with local waste recycling regulations. By ensuring proper disposal of this product, you help prevent potential harm to the environment and human health resulting from uncontrolled waste disposal and promote the sustainable reuse of material resources. For more detailed information on collection and disposal points for this product, please contact your local municipal authorities or household waste collection service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 12 months
