User Manual

Car Charger
ACU2AA18

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

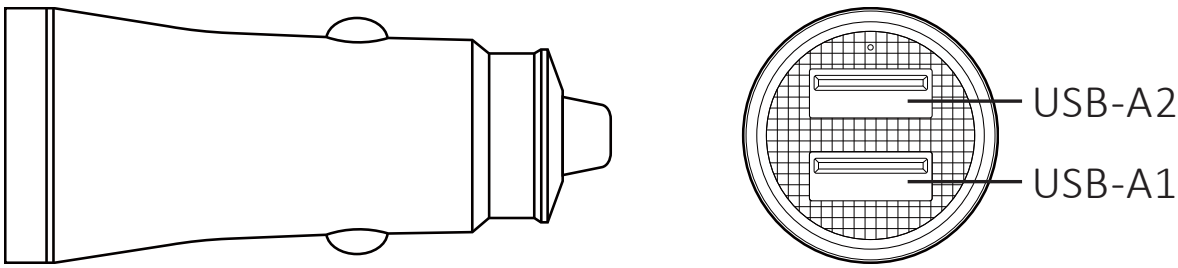

Intended Use

This car charger is designed to charge mobile devices from a vehicle's onboard power supply.

Safety Precautions

- Use this device only for its intended purpose.
- Ensure that the power requirements of your device do not exceed the rated output of the charger.
- Do not touch the ports and plug with wet hands.
- Protect the device from exposure to moisture, excessive heat, and direct sunlight.
- Keep this device out of the reach of children.
- Do not use the charger if it is damaged. Contact an authorized service center.
- Do not use the charger with damaged cables.
- Disconnect the unused charger from the cigarette lighter socket.
- This device is not intended for commercial use.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.

Device Diagram

Operating Instructions

1. Plug the car charger into the vehicle’s cigarette lighter socket.
2. Connect one end of the charging cable to the corresponding port of your mobile device, and the other end to the corresponding port of the charger.

Specifications

- Input power parameters: 12–24 V.
- Output power parameters:
  - USB-A1: 5 V ⎓ 2.4 A.
  - USB-A2: 5 V ⎓ 1.2 A.
- Output power: 18 W.
- IP code: IP20.
- Ports: 2 × USB-A.
- Scope of application: Domestic.

Package Contents

- Device.
- User manual.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The device does not require installation or permanent mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 12 months
