Power Adapter
APD-SY10

aceline

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The universal power adapter is designed to power and charge various devices from an AC power outlet.

Safety Precautions

- Use the device only for its intended purpose.
- This device is not intended for commercial use.
- During operation, the device must be placed on a dry surface.
- Do not cover the adapter or place any objects on it.
- Place the device away from powerful heat sources and containers with liquids.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- Do not use the device if there is visible damage; contact an authorized service center.

Operating Instructions

1. Voltage: Determine the voltage required by your device and make sure that a 5 V power adapter can be used to power it.
2. Current: Determine the current consumption of your device and make sure that a 2000 mA power adapter can be used to power it.
3. Connector size: Check the dimensions of your device's power input and make sure it is compatible with a 5.5 × 2.1 mm connector.
4. Polarity: Determine the polarity of your electrical appliance. Connect the adapter cable to the connector in accordance with the selected polarity.
5. Connect the power adapter to the mains.

CAUTION! If the device does not operate properly, immediately disconnect the power adapter from the mains and check if the operating mode is set correctly.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The device does not require installation or permanent mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.

- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Specifications

- Model: APD-SY10.
- Trademark: Aceline.
- Adapter type: Universal.
- Power: 10 W.
- Connector dimensions: 5.5 × 2.1 mm.
- Cable length: 1 m.
- Input voltage: 220–240 V.
- Input frequency: 50–60 Hz.
- Output voltage: 5 V.
- Output current: 2 A.
- Protection against short circuit, overvoltage, overload.
- Protection class: II.
- IP code: IP20.
- Scope of application: Domestic.
- Package contents: Device, user manual.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 24 months
