User Manual

Speakers 2.0
ASP120

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

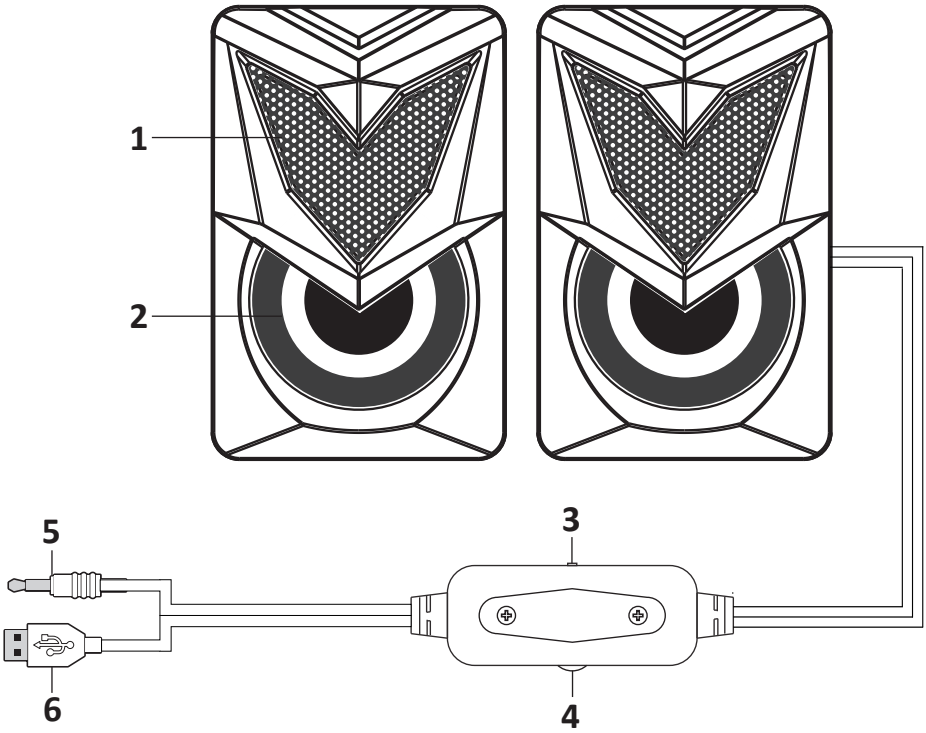

Intended Use

Audio speakers are sound reproduction devices designed to connect to a personal computer, laptop, or other devices serving as an audio source, provided that the appropriate audio jacks are available.

Safety Precautions

- Do not disassemble the device yourself to avoid electric shock. This device contains no user-serviceable parts. Maintenance and repairs should only be performed by qualified technicians at an authorized service center.
- Unplug the device from the power source when not in use.
- Do not allow the speaker wires (including grounded ones) to short-circuit with each other, with the amplifier chassis, or with ground, as this will damage the amplifier's output stages.
- Always turn off the device before unplugging it. To disconnect, grasp the plug — do not pull the cord itself.
- Do not touch the device, plug, or power cord with wet hands.
- Do not allow small objects (needles, pins, coins) or insects to enter the device through the openings.
- Protect the device from water, any liquids, moisture, extreme temperatures, dust, and dirt. Do not install the device in areas with high humidity or dust.
- Do not install the device in areas with high humidity or dust. Do not place containers with liquids (vases, glasses, bottles, etc.) on or near the device.
- Protect the device from overheating. Do not place it near powerful heat sources (heating appliances, etc.) or expose it to direct sunlight.
- This device is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the device.
- Use the device only for its intended purpose.
- This device is not intended for commercial use.
- Do not use benzene-based substances, alcohols, or solvents to clean the device, as they may damage the device and its painted surfaces. To clean the device, use only a soft, dry cloth.
- Immediately unplug the device if it malfunctions, or if the power cord or plug is damaged. Contact an authorized service center.

5. 3.5 mm jack cable.
6. USB cable.

Operating Instructions

1. Connect the device to a USB port / 3.5 mm audio jack.
2. Adjust the volume using the corresponding control.
3. Use the corresponding switch to turn the backlight on/off.

Specifications

- Model: ASP120.
- Trademark: Aceline.
- Power supply: 5 V ⎓ 1 A.
- RMS output power: 6 W.
- Speaker impedance: 4 Ω.
- Frequency range: 40–18000 Hz.
- Cable length: 1.2 m.
- Signal-to-noise ratio: > 35 dB.
- Protection class: II.
- IP code: IP20.
- Cord type: Z.
- Scope of application: Domestic.

Package Contents

- Speakers.
- User manual.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.
- Upon expiration of the service life of batteries supplied with the device, do not dispose of them with other household waste. Batteries must be disposed of in accordance with local waste recycling regulations to prevent potential environmental harm resulting from uncontrolled waste disposal.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 24 months
