Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The office desk is designed to provide comfortable working conditions.

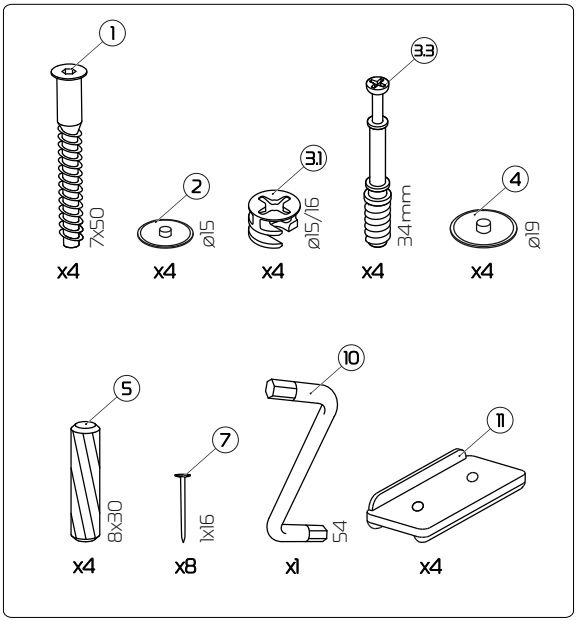

Safety Precautions

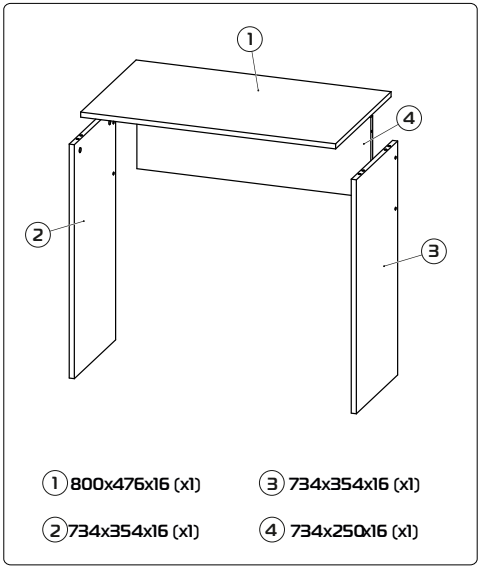

- Use the product only for its intended functional purpose.
- Do not exceed the maximum permissible weight.
- Assemble the product strictly in accordance with the provided user manual.
- Do not expose the furniture to direct sunlight. Prolonged direct light exposure on certain areas may cause a change in their color characteristics compared to less exposed areas.
- Extreme heat or cold, as well as sudden temperature changes, can seriously damage the furniture or its parts.
- The furniture must not be placed closer than one meter to heat sources or heating appliances.
- Do not place hot objects (irons, hot dishes, etc.) on the furniture, and avoid prolonged exposure to heating radiation (light from powerful lamps, microwave emitters, etc.).
- Do not maintain conditions of extreme humidity or dryness for extended periods, and especially avoid their periodic alternation. Over time, such conditions may affect the integrity of the furniture and its parts. If such conditions exist, it is recommended to ventilate the room frequently and, where possible, use dehumidifiers or humidifiers to normalize humidity levels.
- Do not place the furniture near damp or wet walls or objects.
- It is not recommended to stand on the furniture, jump on it, or subject it to increased dynamic loads.
- It is recommended to periodically check the tightness of the threaded connections of the transformation mechanisms and tighten them if necessary.
- Under no circumstances allow the furniture to be exposed to aggressive liquids (acids, alkalis, solvents, etc.), products containing such liquids, or their vapors.

Specifications

- Model: Basic 01.
- Trademark: Aceline.
- Maximum load: 15 kg.
- Dimensions (W × H × D): 80 × 75 × 47.6 cm.
- Material: Laminated chipboard.
- Scope of application: Domestic.

Furniture Care

- Always keep the furniture surfaces completely dry. If necessary, wipe the furniture surfaces with a dry, soft cloth (flannel, broadcloth, felt, etc.).
- It is recommended to clean the furniture as soon as it gets dirty. If you leave the dirt for some time, the risk of streaks, stains, and damage to the furniture coating or its parts significantly increases.
- In case of stubborn stains, it is recommended to use special cleaners that are suitable for the coating type of your product.

Odor

New furniture may emit a natural odor from the materials it is made of. The odor may persist for up to 3 weeks after assembly. To reduce the intensity of the odor, it is recommended to:

- For upholstered furniture: vacuum the product and ventilate the room.
- For cabinet furniture: wipe with a cloth dampened with a mild detergent, wipe with a clean dry cloth, and ventilate the room, having previously opened all doors and drawers of the product.

These actions should be repeated 3–4 times a day.

Package Contents

1. Confirmat screw (4 pcs).
2. Confirmat screw cap (4 pcs).
3. Cam lock (4 pcs).
4. Cam bolt (4 pcs).
5. Cam lock cover (4 pcs).

11. Left side panel (1 pc.).
12. Right side panel (1 pc.).
13. Apron (1 pc.).

Warranty Information

The manufacturer warrants that the product is free from defects in materials and assembly. The warranty period commences on the date of purchase and applies only to new products. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers. Failure to follow the described safety precautions will void your warranty.

Warranty Period: 36 months
Service Life: 36 months

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the product are described in the «Assembly Instructions» section of this user manual.
- The product must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +25 °C, and the relative humidity should not exceed 70% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The product must be transported under dry conditions.
- The product requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the product must be carried out in accordance with local legislation.
- Disposal of this product must be carried out in accordance with local waste recycling regulations. By ensuring proper disposal of this product, you help prevent potential harm to the environment and human health resulting from uncontrolled waste disposal and promote the sustainable reuse of material resources. For more detailed information on collection and disposal points for this product, please contact your local municipal authorities or household waste collection service.
- If product malfunction is detected, immediately contact an authorized service center or dispose of the product.
