Office Chair GT-006

User Manual

aceline

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The chair is designed to provide comfortable working conditions.

Safety Precautions

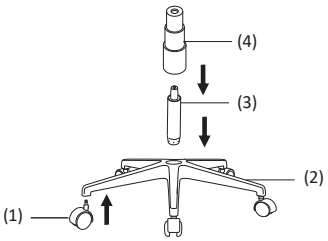

- If delivered during the cold season (at air temperatures below 0 °C) to a room with a higher temperature, wait 2 hours before assembling the product to avoid plastic cracks and gas lift malfunctions.
- Use the chair in a well-ventilated room at an ambient temperature of at least +10 °C and a relative humidity of 60–70%.
- Strictly follow the assembly sequence specified in the provided user manual.
- The maximum load on the seat must not exceed 150 kg.
- Avoid direct sunlight, placement near heating appliances, and damp or cold walls to prevent deterioration of appearance and operational properties (staining, material scorching, upholstery wear).
- Regularly check that the backrest and armrests are securely fastened. Tighten the screws if necessary.
- Do not stand on the seat of the chair or stool with your feet, as this may lead to falling and injury.
- For cleaning, use a dry or slightly damp cotton cloth or sponge. When using cleaning agents, it is recommended to test the agent on a small, inconspicuous area of the product first to ensure no staining occurs. The use of organic solvents for cleaning the product is not permitted.
- Before using the chair for the first time, make sure all mechanisms operate properly.
- When using the chair in the immediate vicinity of heating appliances, its surface must be protected from heat during operation. The temperature of the furniture components must not exceed +40 °C.
- Do not use the chair near open flames.
- During operation, prevent water and other liquids from coming into contact with the parts of the furniture touching the floor.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the product are described in the «Assembly Instructions» section of this user manual.
- The product must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The product must be transported under dry conditions.

- The product requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the product must be carried out in accordance with local legislation.
- Disposal of this product must be carried out in accordance with local waste recycling regulations. By ensuring proper disposal of this product, you help prevent potential harm to the environment and human health resulting from uncontrolled waste disposal and promote the sustainable reuse of material resources. For more detailed information on collection and disposal points for this product, please contact your local municipal authorities or household waste collection service.
- If a product malfunction is detected, immediately contact an authorized service center or dispose of the product.

Warranty Information

The manufacturer warrants that the product is free from defects in materials and assembly. The warranty period commences on the date of purchase and applies only to new products. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers. Failure to follow the described safety precautions will void your warranty.

Warranty Period: 24 months
Service Life: 36 months
