Car Mount
M03-V
User Manual

aceline

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The car mount is designed to securely hold mobile devices inside a vehicle.

Safety Precautions

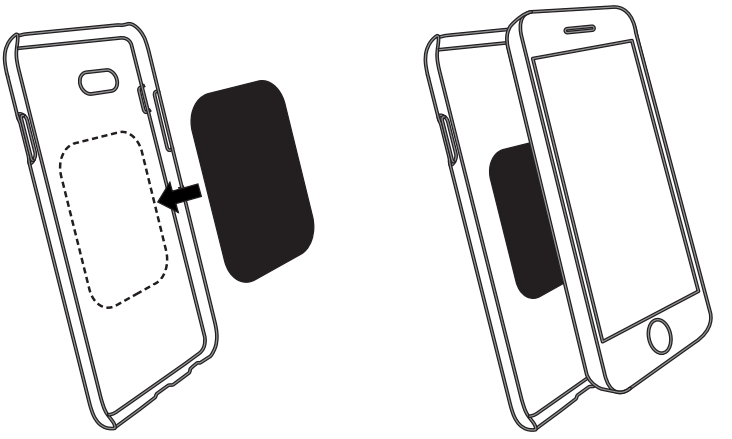

- If a mobile phone falls from the mount, stop the vehicle in accordance with traffic rules to pick it up. Do not pick up a mobile phone while driving.
- Do not use this device while driving and do not perform any actions that may distract you.
- Do not install the mount on or in front of an airbag.
- Regularly check the stability of the device's installation.
- Ensure that the mount does not obstruct the view or interfere with vehicle control or the operation of safety systems.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- This device is not intended for commercial use.

Installation Instructions

Step 1. Installing the metal plate

Method 1: Installation between the case and the device

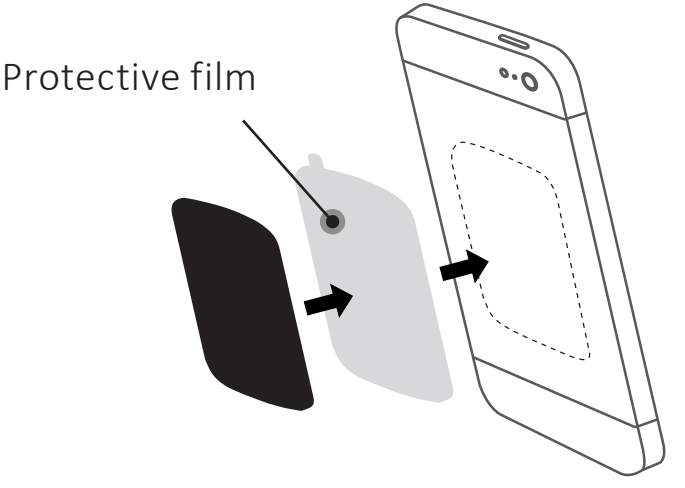

1. Place the metal plate inside the case.

2. Leave the plate for 24 hours for the adhesive layer to fully set.

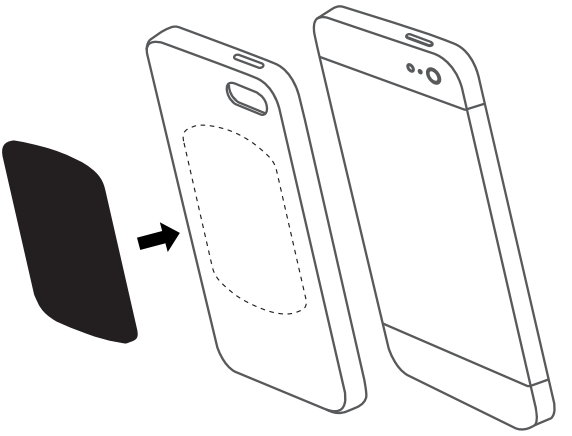

Method 2: Installation on the back of the mobile device

1. Clean and degrease the back surface of the phone.
2. Apply the metal plate to a protective film (not included) and press it firmly against the phone for 1–2 minutes.

Method 3: Installation on the outside of the case

1. Secure the metal plate to the outer surface of the case.

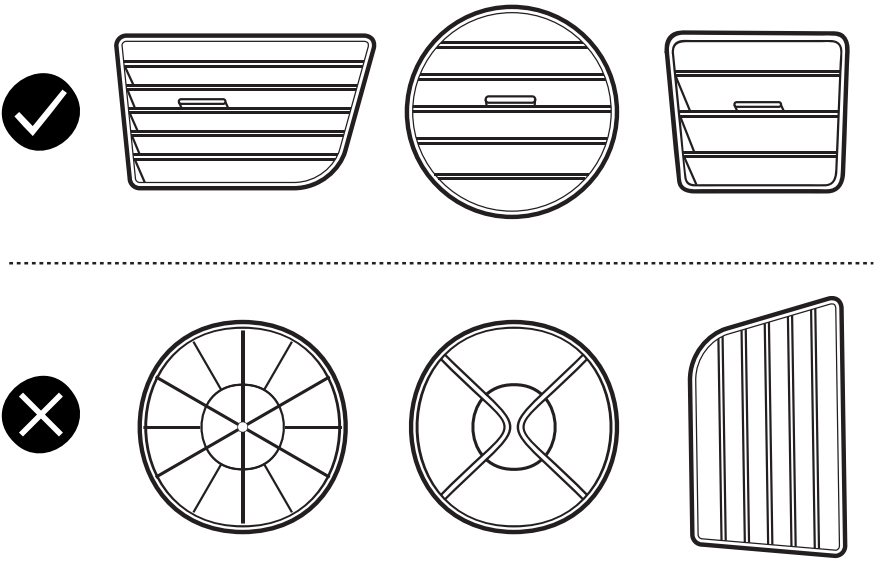

2. Leave the plate for 24 hours for the adhesive layer to fully set.

Note: The case thickness must not exceed 1.5 mm.

Step 2. Mounting the holder in the vehicle cabin

Install the mount into the air vent grille.

Note: This model is compatible only with horizontal vent grilles and is not suitable for non-standard shaped grilles.

- Device.
- Silver metal plates (2 pcs).
- User manual.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the device are described in the «Installation Instructions» section of this user manual.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Disposal of this device must be carried out in accordance with local waste recycling regulations. By ensuring proper disposal of this product, you help prevent potential harm to the environment and human health resulting from uncontrolled waste disposal and promote the sustainable reuse of material resources. For more detailed information on collection and disposal points for this product, please contact your local municipal authorities or household waste collection service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 24 months
