User Manual

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The chair is designed to provide comfortable working conditions.

Safety Precautions

- Do not subject the chair to a load exceeding the maximum permissible weight.
- When using the chair in close proximity to heating appliances, its surface must be protected from heat during operation. The temperature of the furniture elements must not exceed +40 °C.
- Do not use the chair near open flames.
- During operation, prevent water and other liquids from coming into contact with the furniture elements touching the floor.
- Assemble the product strictly in accordance with the provided instructions.
- If delivered during the cold season (at air temperatures below 0 °C) to a room with room temperature, wait 2 hours before assembling the product to avoid plastic cracking and gas lift malfunctions.
- Chairs and stools should be operated in a ventilated room at an air temperature of at least +10 °C and a relative humidity of 60–70%.
- The fastening of chair parts (backrest, armrests) requires regular inspection; tighten the screws if necessary.
- Do not stand on the seat of the chair or stool, as this may lead to falling and injury.
- Before the first use of the chair, check the functionality of all mechanisms.
- Avoid direct sunlight, placement near heating appliances, and damp or cold walls to prevent deterioration of appearance and operational properties (staining, leather scorching, upholstery wear).
- To clean the product, use a dry or slightly damp cotton cloth or sponge. When using cleaning agents, it is recommended to first test the agent on a small, inconspicuous area of the product to ensure no staining occurs. The use of organic solvents for cleaning the product is not permitted.
- This product is not intended for commercial use.

Specifications

- Model: RB-012.
- Trademark: Aceline.
- Weight limit: 150 kg.
- Upholstery material: Eco-leather.
- Base (star base) material: Plastic.
- Base width: 650 mm.

- User manual.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the product are described in the «Assembly» section of this user manual.
- The product must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The product must be transported in a dry place.
- The product requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the product must be carried out in accordance with local legislation.
- Upon expiration of the product's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If product damage is detected, immediately contact an authorized service center or dispose of the product.

Warranty Information

The manufacturer guarantees the product will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months

Service Life: 36 months
