User Manual

Computer Desk
Rush 01

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

A computer desk is designed to provide comfortable working conditions while using a computer.

Safety Precautions

- Use the product only for its intended purpose.
- Do not exceed the maximum weight capacity.
- Производите сборку изделия только в полном соответствии с прилагаемым руководством по эксплуатации.
- Avoid direct sunlight on the furniture. Prolonged direct sunlight on certain areas may cause discoloration.
- Extreme heat or cold, as well as sudden temperature changes, may seriously damage the furniture or its parts.
- Place the product at a distance of at least 1 meter from heating appliances and heat sources.
- Do not place hot objects on the furniture.
- Avoid using the product in conditions of extreme humidity or dryness for extended periods, especially if these conditions alternate frequently. Over time, this may affect the integrity of the furniture. If such conditions occur, ventilate the room regularly and use dehumidifiers or humidifiers as needed to normalize humidity levels.
- Do not place the furniture near damp or wet walls and objects.
- Do not stand or jump on the furniture, and avoid subjecting it to excessive dynamic loads.
- Periodically check the tightness of the screw connections of the transformation mechanisms and tighten them if necessary.
- Avoid contact with caustic or abrasive substances. Use specialized cleaning agents for furniture care. Damp wiping is allowed, provided that moisture is removed afterward.

Specifications

Cleaning and Maintenance

- Always keep furniture surfaces completely dry. If necessary, wipe surfaces with a soft, dry cloth (flannel, felt, wool, etc.).
- It is recommended to clean the furniture as soon as possible after it becomes dirty. If you leave stains for some time, the risk of streaks, spots, and damage to the furniture coating or its parts increases significantly.
- For stubborn stains, it is recommended to use specialized cleaners that are suitable for the type of finish on your product.

Odor

New furniture may emit a natural odor from the materials it is made of. This smell may persist for up to 3 weeks after assembly. To reduce the intensity of the smell, it is recommended to:

- For upholstered furniture: Vacuum the item and ventilate the room.
- For case furniture: Wipe with a cloth dampened with a mild detergent, wipe dry with a clean cloth, and ventilate the room, opening all doors and drawers of the item.

These steps should be repeated 3–4 times a day.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 36 months

Service Life: 36 months

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the product are described in the “Assembly” section of this user manual.
- The product must be stored in its original packaging, on heated premises, both at the manufacturer’s and at the consumer’s sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The product must be transported in a dry place.
- The product requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the product must be carried out in accordance with local legislation.
- Upon expiration of the product’s service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If product damage is detected, immediately contact an authorized service center or dispose of the product.
