User Manual

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The chair is designed to provide comfortable working conditions.

Safety Precautions

- If the chair is delivered during cold weather (at temperatures below 0°C) into a room at normal room temperature, wait at least 2 hours before assembly to prevent cracking of plastic components and malfunction of the gas lift.
- Chairs must be used in a well-ventilated room at a temperature of at least +10 °C and relative humidity of 60–70%.
- Follow the assembly sequence in the enclosed user manual exactly.
- The maximum load on the seat must not exceed 150 kg.
- Avoid direct sunlight and placement near heating appliances or damp, cold walls, as this may cause discoloration, scorching of the upholstery, or premature wear of the covering material.
- The fasteners securing the chair's components (backrest, armrests) should be inspected regularly and tightened as needed.
- Do not stand on the seat, as this may cause a fall and result in injury.
- Clean the chair using a dry or slightly damp cotton cloth or sponge. Before using any cleaning agent, test it on a small, inconspicuous area first to make sure it does not leave marks or damage the surface. Do not use organic solvents to clean the chair.
- Check that all mechanisms function properly before using the chair for the first time.
- This product is not intended for commercial use.
- When using the chair near heating appliances or radiators, its surface must be protected from heat during use. The heating temperature of furniture components must not exceed +40 °C.
- Do not use the chair near open flame.
- When using furniture products, prevent water or other liquids from coming into contact with furniture components that touch the floor.

Specifications

- Model: Statement A.
- Trademark: Aceline.
- Weight limit: 150 kg.
- Upholstery material: Mesh, fabric.
- Base (cross leg) material: Nylon.
- Tilt mechanism: Top-gun.
- Net weight: 13.6 kg.
- Scope of application: Domestic.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the product are described in the «Assembly Instructions» section of this user manual.
- The product must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The product must be transported in a dry place.
- The product requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the product must be carried out in accordance with local legislation.
- Upon expiration of the product's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a product malfunction is detected, immediately contact an authorized service center or dispose of the product.

Warranty Information

The manufacturer guarantees the product will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months

Service Life: 24 months
