

Universal Power Adapter

Aceline W-24

aceline

Dear Customer,

Thank you for choosing our products.

Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

A universal power supply is designed for powering and charging various devices from an AC power source.

Safety Precautions

1. Use the device only for its intended purpose.
2. This device is not intended for commercial use.
3. During operation, the device must be placed on a dry surface.
4. Do not cover the adapter or place any objects on it.
5. Protect the device from moisture, dust, and extreme temperatures.
6. Store this device in a dry place, out of the reach of children.
7. Do not use the device if there is visible damage; contact an authorized service center.

Operating Instructions

1. Voltage: Determine the voltage required by your appliance. Set the switch on the power supply housing to the required voltage. If the voltage is unknown, start with the lowest setting (3.0 V).
2. Current: Determine the current drawn by your appliance and ensure that a 2000 mA power supply can be used to power it.
3. Connector type: Select the appropriate input connector type for your appliance.
4. Polarity: Determine the polarity of your appliance. Connect the power supply cord to the connector according to the selected polarity.
5. Plug the power adapter into the power source. Important! If the device does not operate properly, immediately unplug the power adapter from the outlet and verify that the operating mode is set correctly.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Specifications

- Model: W-24.
- Trademark: Aceline.
- Adapter type: Universal.
- Number of removable plugs: 7.
- Input voltage: 100–240 V.
- Input frequency: 50/60 Hz.
- Output voltage: 3 / 4.5 / 5 / 6 / 7.5 / 9 / 12 V = 2000 mA.
- Output current: 2000 mA.
- Scope of application: Domestic.
- Package contents: Power adapter, user manual.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months

Service Life: 24 months
