ARDOR GAMING Nimbus 1205C Cooling Fan User Manual

Dear Customer,

Thank you for your trust!

Our team fully shares your passion for gaming, which is why we put every effort into making your experience with our gaming accessories unforgettable. We wish you many new victories and the brightest impressions ahead!

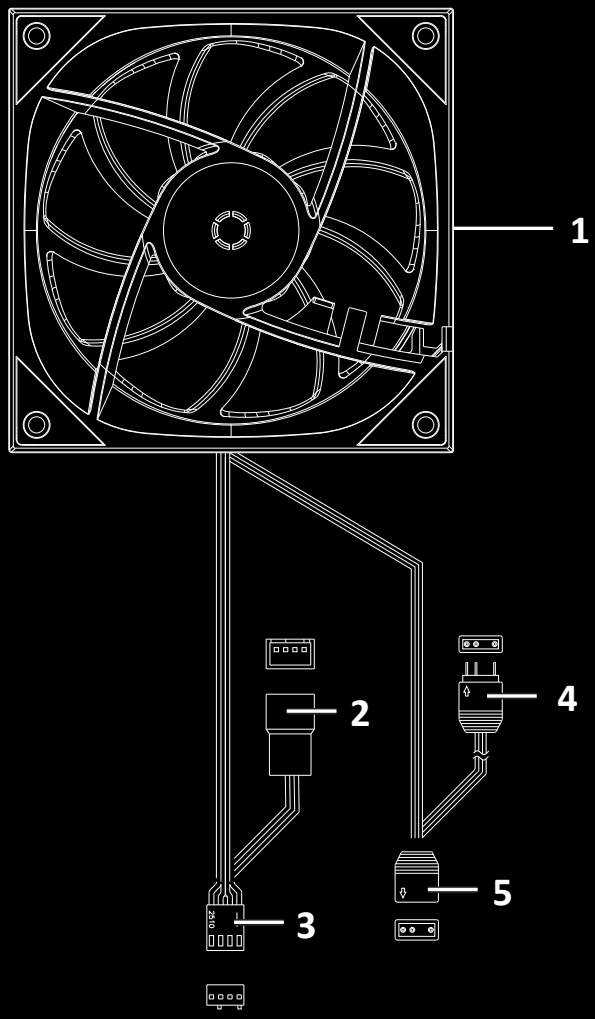

Intended Use

The device is designed to dissipate heat from the internal space of the system unit.

Safety Precautions

- Do not modify the device in any way.
- The device is not intended for commercial use.
- The device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- Do not open or attempt to repair the device yourself. Maintenance and repairs must only be performed by qualified personnel at an authorized service center.

Device Diagram

1. Fan
2. Additional power connector for daisy-chaining fans
3. 4-pin fan power connector
4. Additional ARGB connector for daisy-chaining fan lighting
5. 5 V 3-pin ARGB lighting connector

Installation

1. Turn off the computer, disconnect it completely from the power supply, and remove the computer case panel.
2. Secure the fan inside the computer case using the supplied screws.
3. To determine the airflow direction, examine the shape of the fan blades. Air enters from the side where the blades are concave and exits from the opposite side, where the blades are convex.

Specifications

- Model: Nimbus 1205C
- Trademark: ARDOR GAMING
- Fan speed: 600–1600 RPM ± 10%
- Lighting type: ARGB
- Fan power connector: 4-pin PWM
- Lighting connector: 5 V 3-pin ARGB
- Power supply: 12 V ⎓ 0.095 A
- Maximum static pressure: 1.12 mmH_2O
- Bearing type: Hydrodynamic sleeve bearing
- Airflow: 41.02 CFM
- Noise level: 29.2 dBA
- Dimensions: 120 × 120 × 25 mm
- Scope of application: Domestic

Package Contents

- Cooling fan
- Mounting hardware kit
- User manual

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the device are described in the «Installation» section of this user manual.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months

Service Life: 24 months
