Cable Kit ARDOR GAMING Power Set V2

User Manual

Dear Customer,

Thank you for your trust!

Our team fully shares your passion for gaming, which is why we put every effort into making your experience with our gaming accessories unforgettable. We wish you many new victories and the brightest impressions ahead!

Intended Use

The extension power cable kit is designed for extending PC power cables and routing them inside the case.

Safety Precautions

- Before connecting the cables, turn off the PC, set the power supply unit (PSU) power switch to the «OFF» position, and unplug the power cord from the outlet.
- Ensure the connectors are fully inserted and the latches click into place.
- Do not make any modifications to the device design.
- To avoid short circuits, do not allow the device to come into contact with any liquids, and do not place open containers with liquids near it.

- Prevent insulation damage: avoid sharp bends, abrasion, pinching, and exposure to high temperatures.
- This device is not intended for commercial use.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.

Specifications

- Model: ZPS-WW-02, ZPS-BB-02, ZPS-RB-02
- Trademark: ARDOR GAMING
- Type: Modding power extension cables
- Conductor material: Tinned copper
- PSU compatibility: Universal
- Connector types: Female, Male
- Cable length: 30 cm

- 6-pin PCI-E extension cable × 2 pcs
- 24-pin cable holder × 4 pcs
- 8-pin cable holder × 16 pcs
- 6-pin cable holder × 8 pcs

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The device does not require installation or permanent mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.

- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months

Service Life: 24 months
