Specification

DPI	800/1600/2400/4000
Polling rate	250Hz
Working Voltage	1.5V
Working Current	≤ 10mA

Set Up the Connection

There are two ways you can connect your mouse.

Firstly, make sure the ON/OFF button (on the mouse bottom) is located in ON side and check which mode the mouse is in (press the mode switch, if the side light blink with green light, which mean it is in 2.4 wireless mode, if with blue/red light, that is Bluetooth mode).

Via 2.4G USB wireless(press the mode switch, the side light blink with green light).

Normally just plug and play, your devices will detect the mouse automatically.

Via Bluetooth(press the mode switch, the side light blink with blue/red light).
*Please note that there are two bluetooth channel (side blink with blue light for channel 1, red for channel 2).

- Make sure the mode switch is in Bluetooth mode.
- Keep pressing the mode switch button for about 2s, then you could find the side light blink with blue (or red) light.
- Then open the bluetooth setting on your devices to complete the pairing.
- Search for the new devices and click on BT3.0 Mouse/BT5.0 Mouse to connect.

Rebulid the 2.4G wireless connection

- If you cannot build the connection after pluging the USB to your devices, the situation of the sensor (in the mouse middle bottom) light lighting up for a while and then turning off automatically will be seen, please follow the below guidance to rebuild the connection.

1) Slide the ON/OFF to the ON side and make sure the mouse is in the mode of 2.4 wireless(side light blinking with green light)

2) Then pressing the left, scroll wheel and right button at the same time for about 3 seconds and you will find the side light keeps blinking rapidly.

3) Plug the USB receiver to your devices in 20 seconds. Then the connection will be bulit automatically.

Debugging Tips

- Check the receiver if is connected to the USB port.
- Check the ON/OFF button if in ON mode.
- Check the effective distance between mouse thereceiver and shorten it.
- Rebuild up the connection between the mouse and receiver.

Caution

- Risk of explosion if battery is replaced by an incorrect type.
- Dispose of used batteries incorrect type.
- Dispose of used batteries according to the instructions.
