

Bluetooth Adapter AT-BT401

DEXP

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The device is designed to add Bluetooth support to PCs or laptops that are not equipped with a built-in Bluetooth module.

Operating Instructions

1. Connect the Bluetooth adapter to an available USB connector on your computer. The operating system will recognize the adapter and automatically install the drivers. If the automatic driver installation fails, find the required driver on the Internet and install it manually.
2. During Bluetooth device search, the LED indicator glows steady red. In operating mode, the LED flashes red.
3. Using Bluetooth software, you can now use the Bluetooth adapter and establish connections with other Bluetooth devices.
4. Start searching for new Bluetooth devices. This process varies depending on the operating system you are using. In Windows, this function is accessed by right-clicking the Bluetooth icon in the bottom right corner of the screen or through the Control Panel.

Note: Due to the influence of strong static, electrical, or high-frequency fields (radiation from radio equipment, mobile phones, microwave ovens), radio interference may occur. In this case, increase the distance from the interference sources.

Specifications

- Model: AT-BT401.
