

User Manual

Hair Dryer
BA-1800

DEXP

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The hair dryer is designed for drying and styling hair at home.

Safety Precautions

- Please read this instruction manual carefully before use and keep in a safe place for future reference.
- Before plug in, make sure that the voltage of your home power source corresponds to the devices specifications. Plug the device only into a grounded outlet.
- Always disconnect the device from the power source before cleaning or during an extended period of non-use.
- Do not use the device near sources of water or other liquids. Never place the device under running water or immerse it in water. Do not touch the device with wet hands.
- Do not use the device in bathrooms, showers, near swimming pools, or in close proximity to water.
- Do not use the device near flammable gases, liquids, or materials. Do not use aerosol sprays while operating the device.
- Use only the accessories supplied with the device.
- Never carry or hang the device by the cord.
- Do not use the device if visible damage is detected. Unplug it immediately and contact an authorized service center.
- Do not disassemble the device yourself to avoid electric shock. This device contains no user-serviceable parts. Maintenance and repairs should only be performed by qualified technicians at an authorized service center.
- Never insert foreign objects into the air inlet or outlet vents. Clean them regularly to prevent clogging.
- Ensure that hair does not enter the air inlet vents.
- Never cover the appliance (e.g., with a towel or clothing) while it is hot.
- Operating temperature range: -20 °C to +50 °C. Do not expose the device to prolonged heat or direct sunlight. Avoid overheating the device.
- This device is not intended for commercial use.
- This device is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the device.

Device Diagram

1. Concentrator nozzle.
2. Housing.
3. Air intake grille.
4. Cold air button.
5. Operating mode switch.

Operating Instructions

1. Fully unwind the power cord.

- Switch position « ❄ »: High airflow speed and cold air.
- Switch position «0»: The device is turned off.

Specifications

- Model: BA-1800.
- Trademark: DEXP.
- Power supply: 220–240 V ~ 50–60 Hz.
- Power: 1800 W.
- Number of temperature settings: 4.
- Number of speed settings: 2.
- Cold air function.
- Concentrator nozzle.
- Tourmaline ionization.
- Power cord length: 1.8 m.
- Cord type: Y.
- IP code: IPX0.
- Protection class: II.
- Scope of application: Domestic.

Package Contents

- Hair dryer
- Concentrator nozzle.
- User manual.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months

Service Life: 24 months
