User Manual

Wireless Charger
D1MS15QI2

DEXP

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The wireless charging device is designed to charge mobile devices that support wireless charging, using a power adapter (not included in the package).

Safety Precautions

- Protect the device from moisture, extreme heat, and direct sunlight.
- Do not use this device in close proximity to water sources. Never expose the device to running water or immerse it in water.
- Before cleaning the device, ensure it is disconnected from the power source. Wipe the device with a dry, soft cloth.
- Protect the device from impacts, drops, vibrations, and other mechanical stress.
- Use a power adapter that strictly matches the specified output parameters. Connecting a load exceeding the permissible limits may result in electric shock and damage to the device.
- Do not disassemble the device yourself. This device contains no user-serviceable parts. Maintenance and repairs must be performed only by qualified specialists at an authorized service center.
- This device is not intended for commercial use.
- Do not use the device if it, its cable, or its connector is damaged.

- Do not place metal objects on the wireless charging surface.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety.

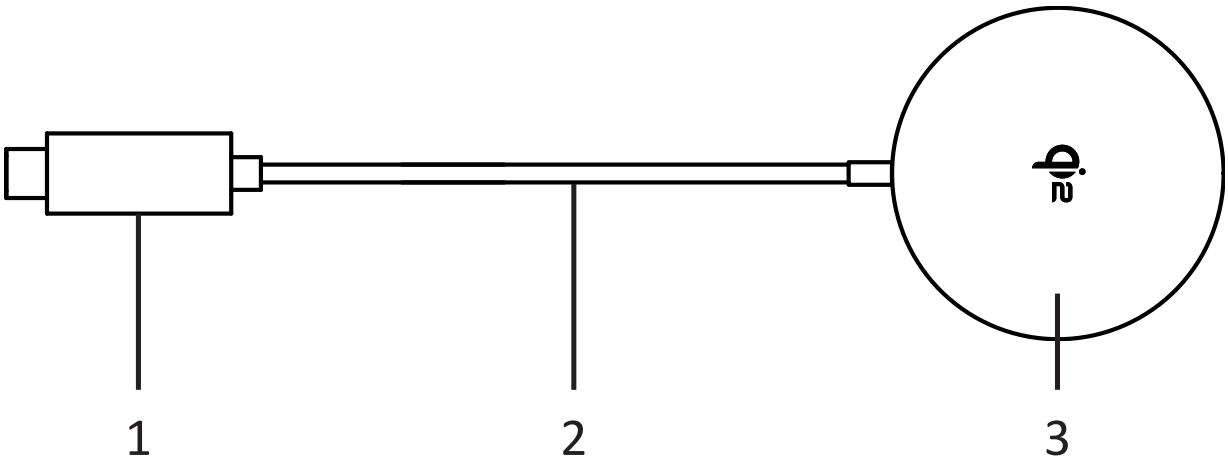

Specifications

- Model: D1MS15QI2.
- Trademark: DEXP.
- Power supply (input): 5 V ⎓ 2 A, 9 V ⎓ 2 A, 12 V ⎓ 1.5 A.
- Maximum output voltage: 12 V.
- Minimum output voltage: 5 V.
- Maximum output current: 2 A.
- Maximum charging power: 15 W.
- Connector type: USB Type-C.
- Cable length: 1.2 m.
- Compatibility: iPhone 12 and later models.
- IP code: IPX0.
- Scope of application: Domestic.

Package Contents

- Device.
- User manual.

Device Diagram

1. USB Type-C port for connecting to the power adapter.
2. Power cable.
3. Wireless charging area.

Operating Instructions

1. Connect the wireless charger to a power adapter (not included) via the USB Type-C port.
2. Plug the adapter into the power supply.
3. Place the mobile device that supports wireless charging on the wireless charging area, screen facing up.
4. Disconnect the charger from the power supply once the battery is fully charged.

Notes

- The charging device may become slightly warm during operation; this is a normal phenomenon.
- In the event of overvoltage, overcurrent, or overheating during charging, the device will automatically stop charging for protection purposes. Once conditions normalise, charging will resume.
- Before charging, ensure there are no metal objects or magnetic cards between the device and the charger.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 18 months
Service Life: 18 months
