User Manual

Curling Iron
HC-1715

DEXP

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

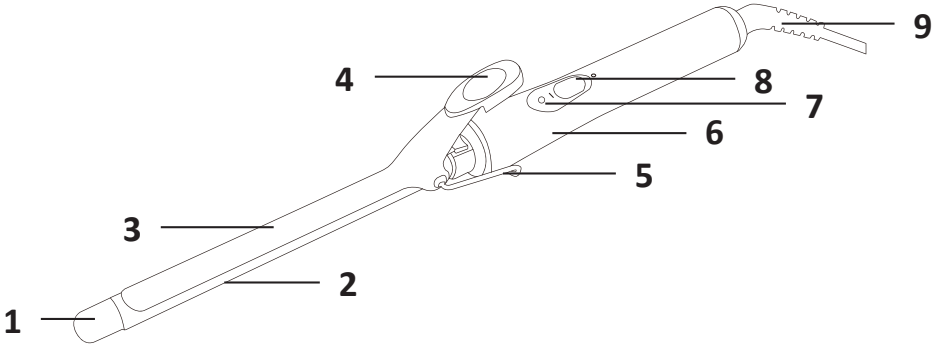

Intended Use

The curling iron is designed for curling and styling hair.

Safety Precautions

- Before connecting the device, ensure that your home power supply parameters match its technical specifications.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- This device is not intended for commercial use.
- Do not submerge the device in water or other liquids. If water gets on the device, immediately disconnect it from the power supply.
- Do not use the device near water. Do not use the device in the bathroom, shower, swimming pool, or other rooms with high humidity. Proximity to water poses a risk, even if the device is turned off.
- Do not use the device if the power cord or other parts and components are damaged, or if the device has been dropped on a hard surface or into water. In these cases, immediately contact an authorized service center.
- To avoid voiding the free warranty service, use only original accessories with the device.
- Do not leave the device plugged in unattended, especially near children.
- Exercise caution when using the device, as it can become very hot. Hold the device only by the handle and avoid contact with the skin.
- Always place the device on a heat-resistant, stable, flat surface. Hot heating plates must not come into contact with the surface or other flammable materials.
- Do not wrap the cord around the device and ensure that neither the cord nor the plug touches hot surfaces.
- Always disconnect the device from the power supply when not in use and before cleaning.
- To avoid burns, keep the device 30–50 mm away from the hair roots.

Specifications

- Model: HC-1715.
- Trademark: DEXP.
- Power: 30 W.
- Power supply: 220–240 V, 50 Hz.
- Power cord length: 1.8 m.
- Swivel power cord.
- Heating temperature: 200 °C.
- Heating element diameter: 9 mm.
- Coating: Ceramic.
- IP code: IPX0.
- Protection class: II.
- Cord type: Z.
- Scope of application: Domestic.

Package Contents

- Device.
- User manual.

Operating Instructions

1. Connect the device to the power supply and press the «Power» button.
2. Press the clamp lever to open the curling iron.
3. Separate a strand of hair and wrap it around the heating element.
4. Release the clamp lever and hold the curling iron for about 3–6 seconds to achieve the desired curl.
5. Open the clamp using the lever and lower the curling iron downwards. Repeat the procedure with the remaining strands.
6. Allow the curls to cool before further hair manipulation.

Maintenance and Care

- After use, leave the device on a heat-resistant surface until it cools down completely.
- Before cleaning, ensure that the device has cooled down completely.
- Do not use aggressive detergents or abrasive materials for cleaning.
- Wipe the device with a soft, damp cloth after each use.
- Turn off the device when not in use; this will extend its service life.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months
Service Life: 24 months
