User Manual

Curling Iron
HC-1805

DEXP

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

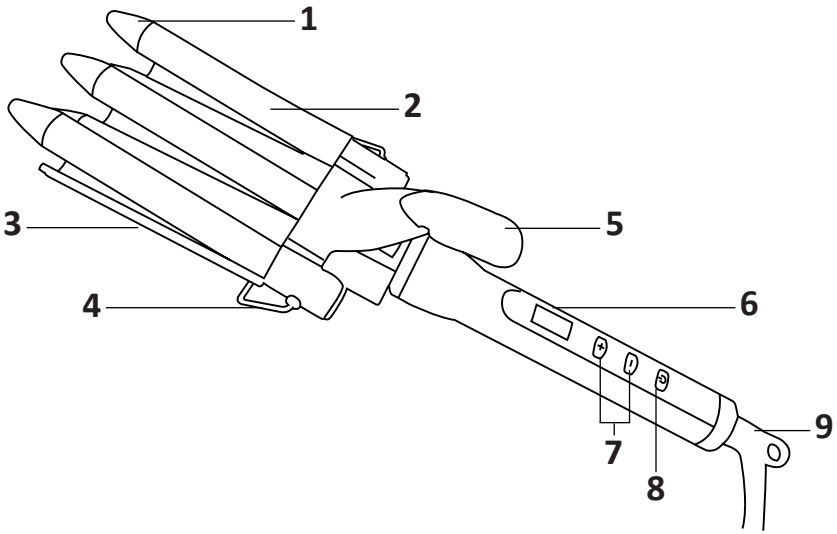

Intended Use

The curling iron is designed for curling and styling hair.

Safety Precautions

- Before connecting the device, ensure that your home power supply parameters match its technical specifications.
- Use the device only for its intended purpose specified in this manual.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- Do not submerge the device in water or other liquids. If water gets on the device, immediately disconnect it from the power supply.
- Do not use the device near water. Do not use the device in the bathroom, shower, swimming pool, or other rooms with high humidity. Proximity to water poses a risk, even if the device is turned off.
- Do not use the device if the power cord or other parts and components are damaged, or if the device has been dropped on a hard surface or into water. In these cases, immediately contact an authorized service center.
- Do not leave the plugged-in device unattended, especially near children.
- Exercise caution when using the device, as it can become very hot. Hold the device only by the handle and avoid contact with the skin.
- Always place the device on a heat-resistant, stable, flat surface. Hot heating plates must not come into contact with the surface or other flammable materials.
- Do not wrap the cord around the device and ensure that neither the cord nor the plug touches hot surfaces.
- Always disconnect the device from the power supply when not in use and before cleaning.
- Do not use on hair treated with flammable substances.
- This device is not intended for commercial use.

Device Diagram

1. Thermally insulated tip.
2. Heating element.
3. Clamp.
4. Stand.
5. Clamp lever.
6. Display.
7. Temperature adjustment buttons.
8. «Power» button.
9. Swivel cord with hanging loop.

Operating Instructions

1. Place the device on the stand and plug it into the power outlet.
2. Press the «Power» button to turn on the device.
3. Press the temperature adjustment buttons to set the required temperature mode. One press of the «+» button increases the temperature by 10 °C, and one press of the «-» button decreases it.
4. Separate the hair into strands approximately 5 cm wide.
5. Press the lever and place one strand of hair between the heating elements, hold for 5–10 seconds, move along the entire strand in the same manner, and then proceed to the next strand.
6. It is recommended to style the hair from top to bottom.
7. Allow the treated strands to cool down before proceeding to style the next ones.
8. After finishing, press and hold the «Power» button to turn off the device.

Maintenance and Care

1. After use, leave the device on a heat-resistant surface until it cools down completely.
2. Before cleaning, ensure that the device has cooled down completely.
3. Do not use aggressive detergents or abrasive materials for cleaning.
4. Wipe the device with a soft, damp cloth after each use.
5. Turn off the device when not in use.

Specifications

- Model: HC-1805.
- Trademark: DEXP.
- Power: 95 W.
- Power supply: 220–240 V, 50 Hz.
- Heating element diameter: 16 mm.
- Plate coating: Ceramic.
- Heating temperature: 100–210 °C (12 temperature modes).
- Auto shut-off function.
- Swivel power cord.
- Power cord length: 1.8 m.
- Protection class: II.
- IP code: IPX0.
- Cord type: Y.
- Scope of application: Domestic.

Package Contents

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 24 months
Service Life: 24 months
