User Manual
Wall Charger IET7CD02

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The wall charger is designed for charging mobile devices from an AC power source.

Safety Precautions

- Keep the wall charger away from water and other liquids, as well as from heat sources.
- Before cleaning the charger, ensure it is disconnected from the power supply.
- Do not disassemble, drop, or shake the charger.
- Do not use the charger with damaged cables.
- Disconnect the unused charger from the power supply.

Specifications

- Model: IET7CD02.
- Trademark: DEXP.
- Port: USB.
- Number of USB ports: 2.
- Output power: 23 W.
- Input voltage: 100–240 V.
- USB 1 output: QC 3.0:
  - 3.6–6.5 V ⎓ 3 A.
  - 6.5–9 V ⎓ 2 A.
  - 9–12 V ⎓ 1.5 A.
- USB 2 output: 5 V ⎓ 1 A.
- Detachable cable: No.
- Fast charging support.
- Scope of application: Domestic.

Package Contents

- Device.
- User manual.

Operating Instructions

- Connect the wall charger to the power supply.
- Connect the device connector to the charging port of your mobile device.
- During operation, the device must be placed on a dry surface, away from powerful heat sources and containers with liquids.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 24 months
