

# **Power Strip Standard 618B User Manual**

# **DEXP**

## **Dear Customer,**

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

## **Safety Precautions**

- Use this device indoors only.
- Do not place this device near water sources.
- Do not place the device under running water or immerse it fully in water.
- Do not cover the power strip or place any objects on top of it.
- Keep the device away from powerful heat sources.
- Do not disassemble the device yourself, to avoid electric shock. This device contains no internal user-serviceable parts. Contact an authorized service center.
- Do not use this device if it shows visible damage. Contact an authorized service center.
- This device is not intended for commercial use.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.

## **Safe Operation Rules and Conditions**

1. Connect all the necessary devices to the power strip.
2. Plug the power strip into an outlet.
3. Set the power strip's switch to the "On" position.

## **Specifications**

- Trademark: DEXP.
- Number of output sockets: 6.
- Cable length: 1.8 m.
- Power supply: 220–240 V ~ 50–60 Hz.
- Maximum connected load: 2400 W.
- Rated current: 10 A.
- Power switch.
- Scope of application: Domestic.

## Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

## Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

**Warranty Period:** 60 months

**Service Life:** 60 months
