

User Manual

Microphone
VOICE NS-07

Fiero

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

A microphone is an electroacoustic device designed to convert acoustic vibrations into an electrical signal.

Safety Precautions

- Do not store the device in areas with high humidity.
- Protect the device from extreme temperatures.
- To prevent short circuits, do not allow the device to come into contact with any liquids, and do not place open containers of liquid near it.
- The microphone is a highly sensitive device. Protect it from drops, impacts, and other damage.
- To avoid strong feedback, do not hold the microphone close to speakers or cover it with your hand.
- This device is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the device.
- This device is not intended for commercial use.

Specifications

- Model: NS-07.
- Trademark: Fiero.
- Microphone type: Dynamic.
- Polar pattern: Hypercardioid.
- Frequency range: 60 Hz — 15 kHz.
- Sensitivity: $-69 \text{ dB} \pm 3 \text{ dB}$ (0 dB = 1 mV/Pa at 1 kHz).
- Impedance: $600 \Omega \pm 30\%$.
- Scope of application: Domestic.

Package Contents

- Microphone.
- Microphone clip.
- XLR to 6.35 mm jack cable (5 m, super-soft).
- Protective pouch.

Operating Instructions

1. Plug one end of the cable (XLR) into the microphone, and the other end (6.35 mm jack) into an amplifier or other device.
2. Set the microphone's power switch to «ON» and adjust the volume on the amplifier or device.
3. Set the microphone's power switch to «OFF» once you finish using it, or before handing it to someone else.
4. Keep a distance of 5–10 cm between your mouth and the microphone: at a shorter distance, the sound may become unclear with exaggerated bass, and breathing may produce an audible popping sound.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- This device requires no assembly or mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Additional Information

Manufacturer: CMG Global Limited.

No. 66, East Jinhui Highway, Investment and Venture Center,
Yinzhou District, Ningbo City, China.

Made in China.

Product specifications, information and appearance are subject to change without prior notice, for quality improvement of our products.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months

Service Life: 24 months
