Plug-In Timer
ST-A03
User Manual

Dear Customer,

Thank you for choosing our products.
We are pleased to offer you products and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the product, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

This timer is designed to control the on/off switching of household appliances in order to save energy, and to automate device operation without the user's direct involvement.

Safety Precautions

- Use this device indoors only.
- Do not connect the device to power strips or other multi-outlet adapters.
- Do not place the device under running water or immerse it fully in water.
- Do not disassemble the device yourself. This device contains no internal user-serviceable parts.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety. Do not allow children to play with the device.
- This device is not intended for commercial use.
- Do not exceed the maximum load specified in the Specifications.
- This device is designed for use at temperatures from 0 °C to 55 °C.
- Do not use the device if it shows visible damage or malfunctions. Contact an authorized service center.

Specifications

Model	ST-A02	ST-A03
Trademark	FinePower	
Power supply	230 V ~ 50 Hz	
Maximum connected load	230 W	230 W
Rated current	16 A	16 A
Number of programs	48	48
Minimum time setting	15 min	15 min
Maximum time setting	24 h	24 h
Battery	-	
IP code	IP20	
Scope of application	Domestic	

Operating Instructions

- Make sure the device is unplugged from the power outlet.
- To set the desired operating time, press in the required number of segments on the dial. Each segment represents 15 minutes. Maximum timer duration: 24 hours.
- Set the red arrow to the current time by rotating the dial clockwise.
- Set the switch to the «Auto» position (next to the «◷» symbol).
- Plug your appliance into the timer, then plug the timer into a power outlet. The indicator will light up red, showing that the timer is on. Once the programmed time period ends, the timer will automatically switch off the connected appliance.
- To switch the connected appliance on or off manually, set the On/Auto/Off switch to the «I» (On) or «O» (Off) position.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The device does not require installation or permanent mounting.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported under dry conditions.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months
Service Life: 36 months
