Car Mount with Wireless Charger

Dear Customer,

Thank you for choosing our products.

We are pleased to offer you appliances and devices designed and manufactured to the highest standards of quality, functionality, and design. Before using the device, please read this manual carefully. It contains important information regarding your safety, as well as recommendations for the proper use and care of the product. Please keep this manual in a safe place and use it as a reference guide during future operation of the product.

Intended Use

The car mount is designed for securing and charging mobile devices inside a vehicle.

Safety Precautions

- Use the device only in accordance with the instructions in this manual and only for charging compatible mobile devices.
- Protect the device from moisture, intense heat, and direct sunlight. Do not use the device in areas where it may fall into water.
- Before cleaning the device, ensure it is disconnected from the power supply. Wipe the device with a dry, soft cloth.
- Do not disassemble, drop, or shake the device.
- Do not use the device if it is damaged, or if the cable or connector is damaged.
- Do not place metal objects on the surface of the charging pad.
- This device is not intended for use by children or persons with reduced physical, sensory, or mental capabilities, unless they are supervised by a person responsible for their safety.
- This device is not intended for commercial use.

Specifications

- Model: X45Q+G77.
- Trademark: Keyron.
- Connector type: USB Type-C.
- Output voltage: 5 V.
- Maximum charging power: 15 W.
- Power standard: Qi2.
- Fast charging function.
- Mounting type: Magnetic.
- Housing material: Aluminum.
- Front surface material: Silicone.
- IP code: IPX4.
- Protection class: III.
- Scope of application: Domestic.

Package Contents

- Device.
- USB Type-C cable.
- User manual.

Device Diagram

1. USB Type-C port for connecting to a splitter.
2. Mount.

Installation Instructions

1. Turn the locking knob to adjust the width of the air vent clip.

2. Adjust the position of the mount.

3. Install the holder in a suitable position on the air vent. Tighten the locking knob.

4. Pass the ball joint through the locking nut (the thread should face the slot).
5. Insert the ball joint into the slot and tighten it.

Note: This model is compatible only with horizontal and vertical air vents and is not suitable for non-standard shaped vents.

6. Connect the device to the car cigarette lighter splitter.

CAUTION! Using multiple charging ports simultaneously may slow down the charging process.

This wireless charger is compatible with magnetic cases and the original MagSafe case (for iPhone 12 and later models only).

CAUTION! In iOS 16, if the device overheats or overcools, charging will automatically pause.

To resume charging the device:

- Move the iPhone to a cooler or warmer place.
- If the device is in active use, put it to sleep mode.

If a temperature warning appears on the screen, turn off the device, then move it to a cooler place (away from direct sunlight) and let it cool down.

Rules and Conditions for Installation, Storage, Transportation, Sale (Distribution), and Disposal

- The installation and mounting conditions for the device are described in the «Installation Instructions» section of this user manual.
- The device must be stored in its original packaging, on heated premises, both at the manufacturer's and at the consumer's sites. The ambient temperature should be between +5 °C and +40 °C, and the relative humidity should not exceed 80% (non-condensing). The storage area must be free from aggressive contaminants (e.g., acid or alkali vapors) that could cause corrosion.
- The device must be transported in a dry place.
- The device requires careful handling. Protect it from exposure to dust, dirt, impact, moisture, fire, and other hazards.
- Sale or distribution of the device must be carried out in accordance with local legislation.
- If a device malfunction is detected, immediately contact an authorized service center or dispose of the device.
- Upon expiration of the device's service life, it must not be disposed of with unsorted household waste. Instead, it must be taken to an authorized collection point for electrical and electronic equipment for subsequent recycling and disposal in accordance with federal or local legislation. By ensuring proper disposal of this product, you help conserve natural resources and prevent potential harm to the environment and human health that may result from improper handling. For more detailed information about collection and disposal points for this product, please contact your local municipal authorities or your household waste disposal service.

Warranty Information

The manufacturer guarantees the device will function properly throughout the warranty period and be free from defects in materials and assembly. The warranty period commences on the date of purchase and applies to new products only. Warranty service includes free repair or replacement of defective parts that fail during the warranty period, provided the failure is not caused by consumer misuse and the product is operated in accordance with the user manual. Repairs or part replacements shall be performed at authorized service centers.

Warranty Period: 12 months

Service Life: 24 months
